Numb. 2560

WEDNESDAY AUGUST 24. 1743.

Yesterday arrived a Mail from Holland.

Constantinople, July 23.

IT is impossible for Words to express the Confusion in which we are here. Every Day produces a fresh Insurrection, and every Insurrection open and secret Executions. The Government here is so putrid for Money to defray the Expences of the War, that t'other Day we had the strongest Instance Royal Indigence, that, perhaps, ever appear'd. In rt, the Grand Signior found himself under a Necessi of exposing to Sale his fine Closet of Curiosities; ich was done publickly, and has produced the Sum three Millions and a half of Pieces of Eight. Our Accounts from the Frontiers of Persia assure us, that Shah Nadir is in full March, with his Army, for Bagd, and within five Days Journey of that City.

Petersbourg, July 30. A Plot has been discovered e Days ago, in which some Persons of Distinction said to be involved, and particularly two Ladies of first Rank and Quality; namely, Madam Lapuchin, Countess Jagosinsky (lately married to the Grand rshal Bestoucheff,) who are both Ladies of the Bedamber. By what has been discovered, it has been g'd sufficient to secure their Persons, and to appoint commission, consisting of three Persons of Distinction, nely, the Inquisitor General Ushakoff, the Attorney neral, Prince Trobetskouy, and Privy Counsellor Leq, to examine them, and to make their Report to Imperial Majesty. Her Majesty has signified her sure to the Grand Marshal, that he should remain in Country until his Lady has been examined, and Case determined.

Petersbourgh, August 10. Her Imperial Majesty has t Baron Korff to compliment the Duke of Holstein n upon his being elected Successor to the Crown of eden. She has likewise caus'd it to be declar'd to the edish Ministers at Abo, that in case their Country ld be attack'd, or in any Way molested, on account hat Election, she is determined to support them with whole Force of her Empire. Baron de Gersdorff, oy Extraordinary from the King of Poland, had his Audience of her Imperial Majesty the last Day of last Month. The Baron has a very agreeable Person, makes a much more superb Figure than the Marquis la Chetardie, while he resided here. It is supposed, he comes here to negotiate some Affair of great portance, in which there is all the Probability in the rld of succeeding; since no Minister was ever better ived than he, both by the Empress and her Ministers.

Stockholm, August 16. We began to imagine that unt Lewenhaupt had taken his Measures so well, as be entirely out of the Reach of his Enemies; when, the 14th, we had the surprizing News of his being en. The two Captains, Graman and Theomede, who mmanded two armed Shallops near Longholm, saw, distance, a Yacht endeavouring to sail against the nd. They immediately pursued, came up with her, the Crew making their utmost Efforts to defend mselves, boarded, and took Possession of her by ce. As soon as they enter'd the Vessel, Count Lewaupt came up to them in a Sailors Habit, and said, me that you look for, here I am. When he was ought back to this City, his Friends and Relations inposed a-fresh, in hopes of preserving his Life; to ich the Nobility and Clergy shew'd a very great Ination. The Burgesses were not very averse to it, the Peasants remained firm, or rather inflexible, ich Count Lewenhaupt foresaw; for as soon as he carried back to his Chamber in the Prison, he said, re is no farther Hope, I see now that I must die. was accordingly brought Yesterday to the Spot ere Baron Bodenbrook suffered, and there beheaded. died with great Firmness, and much Presence of nd, having never betray'd the least Sign of Fear, or kness, from the Moment that he was retaken. M. de ntemar, Secretary to the Marquis de Lanmarie, Amador here from this most Christian Majesty, set out Week with Dispatches from M. Dallion, Minister n the French Court at Petersbourgh. The Curious erved here, that this Practice has been of late very quent; and as it is known that these Packets come from nce, it is believed, that there is some very extraordiy Reason for their being sent thus round about; and this we are the more apprehensive, because we have tain Advice from Petersbourgh, that there is still a lecontent Party there who are engaged in so many Intrigues against the Government, that it has been thought requisite to forbid People from talking there of the Czarina's Journey to Moscow, tho' Preparations are made for it before their Eyes.

Copenhagen, August 24. The Danish Fleet is now drawn out into the Road, the Troops seem to be just upon the Point of taking the Field, and the common Talk is of a Camp to be speedily formed in the Neighbourhood of Elsenore. An Embargo is laid in this Port upon Shipping, and about 400 Transports are already stopped; and many more, it is said, are wanted. Count Daneskiold proposes in a few Days to hoist his Flag, and to take upon him the Command of the Fleet.

Mentz, August 23. Yesterday in the Afternoon the three Battalions of British Guards passed the Rhine; the Cavalry and the rest of the Infantry, as also the Hessians, are now in Motion to follow, and will all be over this Afternoon. The King came from Biberich about Seven to the Chartreuse, as did also his Royal Highness the Duke.

Rome, August 10. Last Sunday his Holiness went with great Solemnity to the Church of Sancta Maria de la Minerva, in order to christen a whole Family of Jews, who have embraced the Catholic Religion. This is an extraordinary Affair, and makes a very great Noise here. The Father of the Family is one Joseph Sacerdoto, heretofore a Merchant at Ancona; a Man of good Sense, and fair Character, of the Age of 42. He was presented at the Font by Cardinal Aquaviva, and was named Benedict-Maria. His Wife, whose Name was Bona-Artoni, of the Age of 31, was presented at the Font by the Lady Eleconora Buoncompagni, Princess of Piombino, and was named Benedicta-Maria Louisa, Mordecai Sacerdoto, their Son, came next to the Font; he was aged about 12, and had the Cardinal Corsini for his Godfather; he was called Prosper-Maria. The last that was baptized was their Daughter, Rachel Sacerdoto, who was presented by the Lady Constantia Eleconora del Guidice, Princess of Cellemare; She was 7 Years old, and was called Maria-Imelda del Guidice. The Pope has assigned this Family about 3000 Crowns, which is the Sum the new Elector of Mentz will pay for his Briefs. The Cardinals Aquaviva and Corsini gave the Father and Son each 200 Crowns, besides some other Presents. The Princess of Piombino, and the Princess of Cellemare, gave some Jewels of Value to both the Mother and the Daughter. Upon the former, the Princess of Piombino has settled a Pension of six Crowns a Month for Life; and the Princess of Cellemare has declared, that if any Gentleman thinks fit to make his Addresses to the latter, she will give her a Fortune suitable to his. Yesterday in the Evening died Cardinal Louis Pico de la Mirandola, aged 74 Years and 8 Months. He was honour'd with the Purple by Pope Clement XI. of the House of Albani, in the Year 1712. We have this Moment Advice, that a considerable Quantity of Warlike Stores, and Ammunition of all Sorts, arrived lately at Civita Vecchia, in eight Barks, and three Saigues, from Majorca, for the Use of the Spanish Army; which has filled the Court with Uneasiness, from an Apprehension of its procuring a Visit to that Port from some of Admiral Matthews's Men of War.

Vienna, August 17. On the 6th of this Month the reciprocal Acts of Renunciation and Guaranty were read, and approved, by the Ministers of the Queen, our Sovereign, and Count Dhona, who resides here on the Part of the King of Prussia; and on the 14th, they were exchanged together, with the solemn Act of the States of Bohemia, by which they renounced all Title to the Sovereignty over the Duchy of Silesia, and the County of Glatz; so that we now look upon all Affairs between our Court and that of Berlin, to be entirely adjusted, and therefore we are no longer in Pain about the Motions of his Prussian Majesty's Troops. We begin to talk here of a Journey that the Great Duke is shortly to take, and on account of which, his Equipage is already getting ready. Some will have it, that he is going to receive the Homage of the States of Lorrain; thus much, however, is certain, that his Royal Highness dispatched, within these few Days, a Courier to Prince Charles of Lorrain, with Letters relating to this Journey. The French Governor of Ingoldstadt is determined to stand the Siege, in hopes of preserving 180 Battering Cannon that were deposited there; but we are informed, that the Croats, in a second Attempt, have succeeded in their Design of burning the Palisades; and that it was thought the Townsmen would not suffer the Governor to stand a Bombardment. The States of Lower Austria have granted her Majesty 400,000 Florins.

Strasbourg, August 22. We are here in the utmost Confusion. The vast Magazine of Hay on the Esplanade took Fire last Night between 8 and 9 o'Clock; and notwithstanding all the Precautions that were used, was in two Hours reduced to Ashes. We are now employ'd in making the strictest Search we can, in order to discover whether it was not set on Fire on purpose. Our Troops are so well posted on the Banks of the Rhine, and all the Fords are so well guarded, that we apprehend Prince Charles's Design of passing this River to be impracticable; and so all our General Officers seem to think.

Frnarbach, August 20. General Baron Menzel arrived here on the 17th of this Month, and Yesterday he sent a Detachment to Sarr Louis, in order to publish the Queen, his Mistress's, Manifesto. In it she declares, That she is determined to restore to the Empire the Provinces of Alsace, Burgundy, and Franche Comte, as well as the Duchies of Lorrain and Barr, the three Bishopricks of Metz, Toul, and Verdun, together with the Places taken from the Duchy of Luxemburg, in order to reduce the Power of France within so narrow a Compass, as that she may never have it in her Power to think of giving Laws to her Neighbours, either in the Way of Negotiation, or of the Sword.

Hague, August 29. This Day at Noon arriv'd a Courier at Baron Reischach's, with Advice, that on Saturday the 24th Instant his Royal Highness Prince Charles of Lorrain had passed the Rhine with his Army, in sight of 32 Battalions of Regular Troops, 6000 French Horse, and near 30,000 Peasants, who retired, after a small Resistance. The Army of the Allies is marched on the Side of Worms, so that, very probably, it will join that of Prince Charles, in order to force the French, as soon as possible, to a Battle. The Merchants at Rotterdam have had a fresh Alarm, on Account of a Spanish, or rather French Privateer, which was seen and spoke with by the Pilot Boat off Gorée, the Day before Yesterday, tho' as yet we have heard of no Capture she has made. She has been described in the following Manner, a Sloop with two Masts, English built, square stern'd, painted Green, has her Quarter Deck Cloth painted Red and White, has four Port-holes, carries eight Swivel Guns, and about 40 Men, and when seen, sail'd under Dutch Colours. By Letters which the Venetian Ambassador here received the Day before Yesterday, we learn, that the Contagion has spread and manifested itself not only in the City of Reggio, but also in the Islands of St. Maure and Cephalonia.

in the Duchy of Placentia, to be taken off; and his Eminency goes thither to visit them.

Last Monday John Ellard was committed to Clerkenwell Bridewell by Justice Wroth, for sitting in his Cart and driving the Horses, not having any body on Foot to guide 'em, and refusing to pay the Penalty, which is ten Shillings.

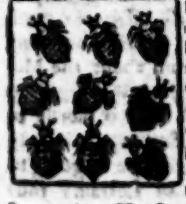
BUGGS Destroyed.



WHereas I have for many Years, with Success, made it my Business to destroy those nauseous Vermin call'd BUGS, out of Hospitals, Palaces, and other smaller Buildings, at a reasonable Price, the same being done with a Preparative no way offensive, without the least Damage either to Bed, Bedding, or Furniture, be the same ever so good; and after I have destroy'd them, if any should happen the following Year to be brought in by Peoples Cloaths from other Houses, which may happen in new Furniture, rather than to those that I have cur'd and cleansed, which is owing to the Quality and Nature of what is used, then, and in such Case, I promise to cure them gratis; and those that are desirous to agree for any Number of Years, may, at a small yearly Sum, depend on having their Furniture kept entirely clean from them. Therefore, those that are pester'd with them, will be waited upon, by sending a Line for that Purpose to me JOHN WILLIAMS, at Janeway's Coffee-House, near the Royal Exchange, or at the Rainbow in Lancaster-Court, Charing-Cross, or at my own House in Noble Street, near the Two Brewers, in the Parish of St. Luke, near Old-Street.

Concerning Gleets *and* Seminal Weaknesses *of all Kinds.*

ALL judicious Physicians and Surgeons allow, that nothing is more difficult to cure than Stubborn Gleets and Seminal Weaknesses, whether occasion'd by too severe purging for Venereal Injuries, violent Strains, Pollutio sui, or any other Cause whatever; and that they are dangerous in their Consequences, as well as difficult to cure, is as certain, since they exceedingly weaken the Generative Faculties, infeeble the whole Nervous System, often bring on Hectick Heats, a Tabes Dorsalis, or Consumption of the Back, or an Atrophy or Nervous Consumption, which frequently terminate in Death itself.

All such, therefore, who have the Misfortune to be troubled with Old or Stubborn Gleets, Seminal Effusions, Involuntary Emissions, excessive Nocturnal Pollutions, or any Weakness of the Kidneys, Ureters, or Bladder, the Diabetes, Incontinency of Urine, or Difficulty of holding their Water, would doubtless be glad to meet with a certain, safe, and speedy Cure, which they most assuredly may, by taking only a small Quantity of a transcendent BALSAMICK RESTRICTIVE ELECTUARY, now published for a general Good after having for many Years been experienc'd never once to fail perfectly curing the most Stubborn Gleets known, in a few Days, without Difficulty or Trouble; as also all other Weaknesses of the Back, Reins, Seminal Vessels, and Urinary Passages, whichit almost instantly cures, by restoring to rights and restoring all those Parts and Passages to their natural Tone and pristine Vigour, in a very extraordinary Manner, and by taking a few Doses of it only.

This transcendent BALSAMICK RESTRICTIVE ELECTUARY is neither disagreeable to take, nor occasions the least Confinement, but is a wonderful Restorative in all Weaknesses and Relaxations of Constitution of any Kind, and particularly strengthens the Back, Reins, Seminal and Urinary Vessels to an Astonishing Degree, insomuch that in any Debility of them, one Dose of it does more than ten of any other Remedy yet found out; so that all Persons fatigu'd with Gleets or Seminal Weaknesses of any Sort, or Weaknesses of the Urinary Vessels, who take it, in three Days time find it so very effectual, that they will be most agreeably surprised at it.

When a Medicine will infallibly accomplish such a speedy and perfect Cure of such difficult Maladies, as Gleets and Seminal Weaknesses are, as this Great Remedy truly and directly will, even after all other Means and Medicines have been tried in vain; too much cannot be said in it, and All who ever took it for any of the above-mention'd Purposes have readily declared.

The Price is but 6 s. a Pot, altho' for its absolute Use one Pot alone being sufficient in most Cases to accomplish a Cure, worth ten times as much, and by the Author's special Appointment, is to be had only at Mr. Roach's Toy-shop, at the Rose and Crown against St. Clement's Church-Yard in the Strand, ready sealed up, with a Book of Instructions, which whosoever carefully reads will certainly know, when the Gleet or Weakness he is afflicted with succeeds a Venereal Injury, whether all the Malignity of the Foul Disease is intirely eradicated or not.

Note, Ask only for a 6 s. Pot of Balsamick Electuary.
